Civilian Personnel
PREPARATION OF REQUESTS FOR PERSONNEL ACTION
STANDARD FORM 52

1. PURPOSE. This guide is designed to assist operating offices in preparing Standard Form 52 (SF-52), revised 4/87, Request for Personnel Action. Use of this guide will facilitate proper submission and subsequent timely action on the request.

2. GENERAL INFORMATION

a. The SF-52 is the official form prescribed for use throughout the Federal service to request that an official personnel action be taken on a civilian employee. It provides a uniform way for managers to request that action be taken by the Civilian Personnel Office (CPO) on positions and/or employees in their organization and to document the clearances and approvals required before those actions can be taken.

b. The SF-52 was revised in April 1987. Effective 1 October 88, only the 4/87 version of the form may be used. The form is available through normal publications distribution channels.

c. Each organization has established its own set of internal controls regarding who is responsible for preparing the SF-52 and where it must be routed within the organization (e.g., budget, manpower, etc.). This pamphlet will only cover those items that are required by the CPO for its processing purposes. **One copy of the SF-52 should reach the CPO with all required documentation.**

3. RECRUITMENT ACTIONS.

a. Requests to fill positions should be submitted as soon as it becomes known that a vacancy will occur and that spaces and funds will be available. It is not necessary to wait until an individual actually departs to begin recruiting for a replacement.

b. If the position to be filled is a new position or if the duties of an existing position need to be changed before recruitment, then DA Form 374WS, Job Description Worksheet for

Supervisors, must be submitted with the SF-52. This worksheet describes the proposed duties and responsibilities of the new or changed position and is completed and signed by the supervisor.

c. If the position to be filled is temporary, a request to terminate the temporary appointment is submitted along with the recruitment request. This reduces administrative time for processing the termination of the action by having the request already on hand in the CPO.

4. DETAILS AND TEMPORARY PROMOTIONS.

a. Details are the temporary assignments of employees to other duties where no change in pay is involved. **Only details over 30 days in length require the submission of an SF-52** for inclusion in the employee's Official Personnel Folder. Details of 30 days or less do not require that an SF-52 be submitted, but supervisors should document such short-term details on their employee records.

b. Temporary promotions are promotions of employees with time limitations. The employee is actually promoted to the higher grade and receives the pay of the higher grade. **All requests for temporary promotions must be submitted on an SF-52**

c. Requests for temporary promotions are processed in the same manner as regular promotions and are effective at the beginning of biweekly pay periods. Requests for temporary promotions must be submitted far enough in advance to allow for all necessary clearances, approvals, and CPO processing. **Temporary promotions cannot be made retroactively; therefore, advance planning is important.**

d. Temporary promotions and details of an employee to a higher grade can be made without competition for a 120-day period; this 120-day period is cumulative in any 12-month period. **Requests to temporarily promote or detail an employee to a higher grade beyond this 120-day noncompetitive period should be requested as recruitment actions** in order for competitive promotion procedures to be applied.

e. A request to terminate the temporary promotion or detail must be submitted at the same time as the initial request to detail/temporarily promote.

5. PROMOTION OF TRAINEES.

a. Some positions are reduced below their target grade and competitively filled by employees who undergo training to assume the full performance level of the position. These developmental positions usually have a training plan which includes a minimum training period for promotion to the full performance level. Completing the training period does not result in automatic promotion; the supervisor must also certify that the employee is performing at the higher level and must request the promotion. An SF-52 is used for these purposes.

b. Requests for promotions of trainees are effective at the beginning of the next biweekly pay period after all requirements have been met. Requests for promotions of trainees must be submitted far enough in advance to allow for all necessary clearances, approvals, and CPO processing. **Promotions of trainees cannot be made retroactively;** therefore, advance planning is important.

6. POSITION REVIEW. When the duties and responsibilities of a position have changed, or it is desired to make a change, an SF-52 should be submitted. A DA Form 374WS with a description of the changes, including any proposed addition or deletion of duties, should be attached.

7. DISCIPLINARY/ADVERSE ACTIONS.

a. Disciplinary/adverse actions include suspensions and removals for cause. Management officials considering taking these types of actions must contact the Management-Employee Relations Division of the CPO for advice on the amount and type of documentation required to support an action and the procedural steps necessary to take the action. An SF-52 will be required to formally affect the action.

b. For suspension actions, an SF-52 requesting return to duty must be submitted at the same time.

8. LEAVE WITHOUT PAY (LWOP) AND FURLOUGH.

a. An SF-52 is required to grant LWOP of 80 hours or more because of an on-the-job illness or injury.

b. An SF-52 is required to grant LWOP of over 30 calendar days for all other reasons. If the LWOP was originally for less than 30 calendar days but extends to over 30 days, an SF-52 is required.

c. An SF-52 is required to furlough an employee (e.g., involuntary placement into a non-pay status to meet budgetary or other limitations).

d. An SF-52 requesting return to duty must be submitted at the same time. If the LWOP was granted to a family member seeking employment at a new duty station and a resignation was submitted to be effective at the end of the LWOP, no request for return to duty is required.

9. SEPARATIONS

a. Employees who resign or retire should complete a Standard Form 52 whenever possible. Completion of the SF-52 will facilitate gathering the required information.

b. A termination SF-52 should be submitted along with each SF-52 for a temporary action (recruitment, promotion, detail, etc.) This SF-52 will be used to process the termination action when it occurs.

c. Employees separating to enter active military duty for an extended period should submit an SF-52 requesting Termination - Military.

d. Removals and other involuntary separations for cause such as discharge during the probationary period are considered to be disciplinary actions for the purpose of this guide.

POSITION ABOLISHMENTS

Requests to abolish a position should be submitted on an SF-52. If a new position is to be established in lieu of one that is abolished, the request will be to Abolish and Establish.

EXTENSIONS OF TEMPORARY ACTIONS.

Requests to extend temporary actions (appointments, promotions, and details) should be submitted on an SF-52. Extensions should be submitted far enough in advance to allow necessary approvals and clearances.

12. MISCELLANEOUS CHANGES.

Miscellaneous changes include Name Change, Change in Part-time Work Schedule, Change in the Number of Part-time Hours Worked, and other similar changes. An SF-52 is required.
